Owner – Justin These

There is a saying within the sign industry, “a business with no sign is a sign of no business.” We believe that not only is it important to have a sign representing your presence, but a unique visual aid within the sign that represents your class, and uniqueness.

“Justin did an excellent job on my signage for my new dance studio. He worked in a very professional manner and went above and beyond the call of duty. He is very knowledgeable and explained everything he was doing in a easy to understand manner. I would highly recommend him to anyone needing signage!”

Melissa Penney
Desert Moon Dance Studio

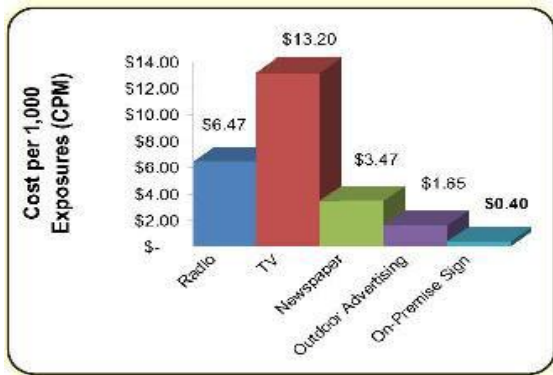

When making a purchase, I always look for someone who offers 3 key things: service, price, and quality. You can usually get 2, but you never get all 3. Riverland Custom Signs made sure I received all 3.

Matt Koziara
Kozi's Maintenance Services

What do you do for marketing and advertising? Are you truly making an impression on potential customers? Have you spent sums of money on newspaper advertising, only to get no business out of it?

It is a scary idea of pumping money into a slightly un-predictable advertising product. Riverland Custom Signs encompasses all the more modern and proven visual advertising solutions, to offer you the client the best means to make an “impression” on your potential customers.

The graph below shows you an estimate of how much it costs you per impression with different forms of advertising. Notice, the on-premise sign costs you the least out of all other forms? Truth be told, if you are in the right business for you, your sign should pay for itself over, and over again!

MORE TYPES OF SIGNAGE OFFERED:

Please visit www.riverlandcustomsigns.com for a full list of sign services

We also offer web design completely unique to you, and your brand. Having a website for your business is much like having a sign. With the almost exclusive use of the web to now find services and products, you need a web designer that can help you reach through the technical medium of computers to let everyone know your business has arrived! Along with your custom website, we also offer:

- *Custom Web Art (imagery completely unique to you, including background design)
- *Content Management (Allows you to add all of your pictures, news, videos, ect. Gives owner unlimited ability to update website content.)
- * Analytics (tracking reports providing information on visitors)
- * Search Engine Optimization (tools the website to allow search engines to index your website optimally)
